</table>
| 28.10.2019 | *Epigenome-wide association study of prenatal exposure to endocrine disrupting chemicals* Katharina Mattonet, Genetic Psychology  
              *Epigenetic signatures of adverse environmental experiences in early child development* Svenja Müller, Genetic Psychology |
| 11.11.2019 | *Journal Club: Short presentations by students*                      |
| 25.11.2019 | *Journal Club: Large-scale genome editing (Smith et al. bioRxiv); A global overview of pleiotropy and genetic architecture in complex traits (Watanabe et al., Nat Genetics, 2019)*  
              Prof. Dr. Robert Kumsta, Genetic Psychology |
| 09.12.2019 | *The neuron in context* Dr. Vanessa Lux, Genetic Psychology            |
| 06.01.2019 | *tba*                                                                  |
| 13.01.2019 | *tba*                                                                  |
| 20.01.2020 | *The impact of positive and negative environmental experiences on DNA methylation and gene expression in early developmental stages* Svenja Müller, Genetic Psychology |
