

**Research Colloquium Genetic Psychology SoSe 2022**

**Mondays 4-6 pm (c.t.) – IA 02/460**

- |            |   |
|------------|---|
| 25.04.2022 | <p><u>Master thesis presentation:</u> <i>Effects of stress on gene methylation</i><br/>Elisabeth Köper</p>  |
| 02.05.2022 | <p><i>Identification of brain area specific DNA methylation patterns using classification analysis</i><br/>Dr. Vanessa Lux, Genetic Psychology</p>  |
| 09.05.2022 | <p><i>Does environmental sensitivity shape experiences in the short run? The example of the second COVID-19 lockdown in Germany</i><br/>Claudia Horzela &amp; Dr. Vanessa Lux, Genetic Psychology</p>               |
| 16.05.2022 | <p><i>Tba</i></p>   |
| 23.05.2022 | <p><i>Tba</i><br/>Dr. Dirk Moser, Genetic Psychology</p>  |
| 30.05.2022 | <p><i>The influence of prenatal stress on embryonic skin development in the chicken embryo</i><br/>Morris Gellisch, Department of Anatomy and Molecular Embryology, Faculty of Medicine, Ruhr University Bochum</p> |
| 13.06.2022 | <p><u>Master thesis presentation:</u> <i>Characterization and quantification of cell free DNA during physical and psychosocial stress</i><br/>Alicia Limberg</p>  |
| 20.06.2022 | <p><u>Master thesis presentation:</u> <i>Methodological advancements facilitate novel insights into the epigenetic and inflammatory response to acute stress</i><br/>Fabian Berg</p>                                |
| 27.06.2022 | <p><i>Epigenetic signatures of war-related trauma – a study of refugee families in Africa</i><br/>Dr. Katharina Mattonett, Department of Psychology, University of Bielefeld</p>                                    |
| 04.07.2022 | <p><i>Teleomere length as biomarker for PTSD?</i><br/>Elisabeth Hummel &amp; Janine Deliga, Genetic Psychology</p>  |
| 11.07.2022 | <p><u>Master thesis presentation:</u> <i>Genetics of environmental sensitivity</i><br/>Elia Paletou</p>   |
